Kodak

Kodak Software—make your business life productive and easy

Kodak understands the demands of document capture across virtually any operation—from single document, ad-hoc to batch scanning, from desktop to high-volume production. We make your choice for capture software simple, because we provide the functionality to increase efficiency within any real-world scanning environment. With Kodak, it's simple to make, manage and move images and information more productively, while reducing costs.

From an office professional scanning documents into **Microsoft Word** or **Adobe Acrobat;** to the knowledge worker adding images to a customized application; to a dedicated operator scanning large groups of documents, indexing and sending them to ECM workflows; Kodak has the software and features you need to succeed.

Kodak's Smart Touch functionality

- Fast, easy, "one-touch" scanning for any experience level; select a profile, press a scanner button, and your documents go where you like, automatically
- Ideal solution for ad-hoc document capture and input
- Installed with scanner drivers and shipped with your scanner

Features include:
- Nine, preconfigured "one-touch" settings for simple customization
  - Scan to multiple file types (PDF, searchable PDF, single and multi-page TIFF, JPG, BMP, and more) and destinations including e-mail, **Microsoft SharePoint, Word** and other third-party applications
- Optional preview, edit and file naming

Typical Smart Touch customer environment
- Ad-hoc use of single or multiple scanners
- Customers without complex scanning or workflow needs
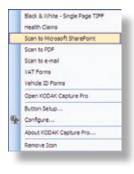

A smart choice if you need to:
- Convert documents into PDF, **Microsoft Word,** or image file formats
- Send to common destinations like e-mail, **Microsoft Office, Adobe Acrobat, Microsoft SharePoint, PaperPort, OmniPage,** or other third-party applications
- Send documents to a network printer or scan a business card

Why choose Smart Touch?
- No training required; "one-touch" scanning
- Set presets for scan to file

Kodak Capture Desktop Software

- Building on most capabilities of Smart Touch, **Kodak** Capture Desktop Software provides the essential functionality to quickly capture and convert documents into usable information
- Optimized for environments where multiple users share a scanner for capturing and enhancing files
- Capture, edit and output anything from single documents to larger batches
- Complete set of icon-based tools available to simplify scanning and automate your capture workflow
- Included with your scanner purchase

Features include:
- Post-scan editing — rotate, crop, rescan, insert page and split document
- Conveniently make scanner setting overrides
- Add a single index (manual or drag-and-drop OCR)
- Automated document separation by count or by using blank sheets of paper
- Page setups for easy configuration of commonly used features
- Create output to file/e-mail/printer
- Advanced **Microsoft SharePoint** output options
- Capability to assign more than 25 shortcuts/scanner buttons to common jobs

Typical **Kodak** Capture Desktop Software customer environment
- One or more users of a **Kodak** Scanner performing entry-level document batch scanning or editing

A good choice if you need to:
- Capture single documents or batches at one time
- Perform post-scan editing such as rescan page insertion, rotate and crop
- Perform basic indexing
- Save as searchable PDF and multi-page TIFF while using drag-and-drop OCR for naming

*Why **Kodak** Capture Desktop Software?*
- Shortcuts and optional scanner button support keep scanning simple
- Ideal for scanning batches of documents with easy-to-use, post-scan editing tools
- Add a single index field
- Flexible output options with easy setup
- Seamless upgrade to full featured **Kodak** Capture Pro Software

Kodak Capture Pro Software

- A full featured, easy-to-use and versatile scanning application ideal for departmental to production environments
- With a single user-interface, **Kodak** Capture Pro Software works seamlessly with scanners from Kodak and other popular manufacturers
- Integrates easily with existing and new applications
- No click charges or volume add-ons to maximize your ROI
- Available for purchase

Features include:
- Support for over 160 scanner models from all leading vendors
- Automated functions to enhance productivity
  - Automated document separation (e.g. by patch code, bar code or OCR value)
- Auto import existing image files
- Advanced indexing with up to 999 indexing fields plus drag-and-drop OCR
  - 1-D and 2-D bar codes, zonal OCR/MICR
- Output to dozens of popular DM and ECM systems, including **Microsoft SharePoint** and **EMC Documentum**

Third-party Scanner Select

- Database lookup to validate or auto populate fields with data from ODBC sources
- Image merge and split
- Content based blank-page removal
- User profiles
- Advanced system output destinations
- APIs for easy development and integration

Typical Capture Pro Software customer environment
- One or more dedicated capture operators, using one or more Kodak and/or third-party scanner(s)

A great choice if you need to:
- Capture, QC and index multiple batches
- Release images and associated index data to other systems
- Customize application setup, screen layouts, shortcuts, etc.

*Why choose **Kodak** Capture Pro Software?*
- Optimized for high productivity with many automated tools
- Full indexing capabilities including bar code, zonal OCR and MICR
- One software product supports hundreds of different scanners and provides dozens of system APIs
